Eleven On Their Way to
Roanoke.

(Special to The Times-Dispatch.)
ST. LOUIS, MO., Sept. 23.—A party of eleven girls en route here from Texas and Arkansas points to Roanoke, Va., to attend school, were driven from the main waiting room of Union Station by a mouse. The girls were congregated about a radiator near the Pullman office when perhaps a hundred women began showing alarm, some by screaming, others by climbing upon seats, and scores of others by rushing madly towards the midway. The rush for exits was participated in by the girls, who, in their haste, forgot their baggage, umbrellas, magazines, candy, etc.

The girls were: Misses Polly Dunlap, Clarksville, Ark.; Dorothy Pugh, Ham-burg, Ark.; Alma Caldwell, Chapman, Ark.; Lillian Brown, Junction City, Ark.; Ruby Rogers, El Paso, Texas; Gertrude Palmer, St. Paul, Texas; Virginia Aldridge, Dallas, Texas; Joney Johnson, Richmond, Texas; B. GREECE AND ROUMANIA
ON THE VERGE OF WAR

(By Associated Press.)
BUCHAREST, ROUMANIA, September 23.—The situation between Greece and Roumania has been completed by the departure of the Roumanian minister from Athens. The interests of the Roumanians in Greece have been transferred to Italy, where the Roumanian legation here will guard the interests of the Greeks in Roumania.

The cause of the trouble between Roumania and Greece is the refusal of Roumania to demand of Greece for compensation those who suffered by the pillaging of Greek shops, and the maltreatment of Greek subjects in Greece and recent demonstrations at Bucharest in connection with the burning of the Greek flag by demonstrators at Gurgovo.

MAJOR DELMAR MAKES
VERY FAST HALF MILE

(By Associated Press.)
CLEVELAND, O., September 23.—Major Delmar, driven by Joe Tanner, to-day trotted the fastest half mile of the season at the Glenville track during the race of the Gentlemen Driving Club. The time was 1:24. The horse was sent to go against the mile record of 2:04, but the track being heavy, no record smashing was attempted until the last half, which was made in the time stated.

SOLD TO REYNOLDS CO.
NOT TO THE TRUST

(Special to The Times-Dispatch.)
MARTINSVILLE, VA., September 23.—President Rucker, of the Rucker and Reynolds Tobacco Company, today made a signed statement with reference to the recent sale by that company to the R. J. Reynolds Tobacco Company, in which Mr. Rucker wishes to correct the statement that he said the sale was made to a branch of the American Tobacco Company, and to set to the R. J. Reynolds Tobacco Company, of Winston, N. C., which is a distant concern without the Rucker and Reynolds Tobacco Company, and any other business.

Mr. Rucker said that during the next year the output of the Martinsville factory will be at least eight million pounds. This is about three times the output of the Rucker and Reynolds Tobacco Company. Mr. Rucker also corroborated the statement that he will be at the head of the Martinsville business.

He Embezzled \$5,000.

(By Associated Press.)
PHILADELPHIA, September 23.—Having confessed the embezzlement of \$5,000, Andrew G. Dunlop, the local selling agent of the Mobile Cotton Mills, of Mobile, Alabama, was sentenced to one year of imprisonment.

SAYS HIS MOTHER
KILLED HIS FATHER

She Then Made Young Quintin
Milner, Her Son, Shoulder
the Blame.

(By Associated Press.)
ALBANY, GA., September 23.—Reports received here from Newton state that sensational developments in the Milner murder case have occurred. A special from that place says:

"On yesterday, Quintin Milner, the young man who is in jail charged with killing his father, Rollie Milner, sent for several of the citizens of the town and made a full and complete statement of how the killing occurred and by whom the crime was committed.

"He said that his mother and father were quarrelling over a hog when his mother seized the gun and shot his father. He said that his mother got him to tell the story about his shooting his father while asleep. They then planned for him to pretend to be crazy in order to cover up the crime. In making his confession, young Milner said that he had stood the strain as long as he could, and that he would tell the truth if he killed him. As the result of his confession, the authorities here sent over and had Mrs. Milner arrested and lodged in jail last night."

More Cholera Cases.

(By Associated Press.)

Mr. Wilson Will Begin To-mor-
row and Will Complete

Mr. J. T. Wilson, the Richmond contractor, who on Friday was selected by the Jefferson Realty Company to rebuild the Jefferson Hotel, was asked last night when he would commence the work. He replied:

"We expect to start Monday. It is not settled fact, and we may not start until Tuesday. The hotel will certainly be finished in a year. I expect to keep 300 men constantly employed on the work, and a part of the time a force will work day and night.

"The contract is signed and everything is ready for the work to be pushed."

Rich Man Who Ran
Train For Fun Killed

(Special to The Times-Dispatch.)
CHARLESTON, W. VA., Sept. 23.—Jack Pannell, an uncle of Joseph and Thomas Beury, prominent coal operators of this State, and himself a wealthy man, was killed to-day in an accident on the Cabin Creek branch of the Chesapeake and Ohio railroad. A fireman, Frank Sawyer, lost his life in the same accident. Pannell's home was at Thurmond, W. Va., and he served as an engineer on the railroad through love of work, being unable to resist the excitement of railroading.

Senator J. B. Foraker closed the speaking program of the afternoon with a discussion of national issues.

NORWAY AND SWEDEN
REACH AN AGREEMENT

The Terms Arranged By Them
Will Not Be Made Public
Until Next Week.

(By Associated Press.)
KARLSBAD, September 23.—After protracted sessions extending over some weeks, the Norwegian and Swedish delegates, who met here to settle the terms of separation of the two countries, arrived this evening at an agreement on all points. The terms were not made public.

In anticipation of an agreement, large crowds assembled around the building in which the meetings had been held to witness the departure of the delegates. The Norwegians emerged immediately upon the conclusion of the session and were on their way to Christiania a few minutes after the announcement was made of the outcome of the negotiations. The Swedish delegates remained within for some time, but when they did show themselves they received an ovation and were escorted to their hotel by the crowd.

Which saw the Swedish national anthem. They left at midnight for Stockholm. The delegates refused to discuss the terms of the agreement, simply saying that they would be given out early next week.

MADE THE ENGINEER
RUN ON TO MELROSE

Two Men Sprung Into Cab and
Compelled Engineer Balue
to Go Ahead.

(Special to The Times-Dispatch.)
CHARLOTTE, N. C., September 23.—Engineer Balue, on a Southern Railway freight train, was compelled to run his train to Melrose, N. C., last night by two men, who entered the cab at Spartanburg Junction. Conductor Bryson, when the train failed to make the usual stops, entered the cab and was confronted by pistols and forced to return to the caboose. He wrote a message, which he dropped at Campobello, instructing the operator to wire officers at Melrose. A posse was organized, and when the train stopped one of the outlaws was arrested and the other escaped.

The prisoner, it is said, is one of the men who participated in the assault on Engineer Clarke and Fireman Hart as they stepped from the engine at the station one mile south of Spartanburg, S. C., last night. Both men were struck on the head, and Hart's condition is precarious.

MAKE CUBA BEHAVE.

President Will Take Charge if
There is Trouble.

(From Our Regular Correspondent.)
WASHINGTON, D. C., September 23.—If the Cubans continue to kick up much of a row among themselves, President Roosevelt, it is believed in Washington, will unwrap his big stick and make the child of this great republic behave itself. While no orders yet contemplated for the army and navy, because of the election troubles, the high chiefs in the departments that would have to deal with the trouble are watching events in the island being confessedly anxious that it is only a question of time when the United States will have to step forward and maintain an adequate government. The fact that Gomez, who is opposing Palma in the race for president of the Cuban republic, is making his campaign mainly on the issue of repudiating the Platt amendment lends some gravity to the state of affairs in the island.

From a high authority in the War Department comes this statement to-day: "No special preparations would have to be made by the department to deal with any situation that might arise in Cuba. We have the troops and the facilities to transport as many thousands of them as may be required, and a sufficient large force could be thrown into the island without any delay.

"We cannot rush in simply because there has been a riot. We have riots in our own country. Should occasion develop, however, there is no doubt that the President would not hesitate to deal with the situation with a firm hand."

Palma's Party
Has Sweet Cuba

Returns Indicate That
the Government Has
Been Victorious.

(Special to The Times-Dispatch.)
HAVANA, September 23.—Cuba has held her first election. Fears had been expressed for several weeks that the day would be fraught with great disorder. These fears seemed justified, for the occurrence yesterday at Cienfuegos of the affray at which Representative Villuendas, Chief of the Police Illana and four others were killed.

The prompt dispatching of strong forces of artillery and rurales and a general display of government strength at danger points may be greatly responsible for the order maintained.

It seems pretty well proved that the Liberals, who plotted to use dynamite extensively in the elections did not suit them, as an expert who examined one of the bombs found in Villuendas's rooms says they contain enough explosive to blow up a whole block.

There is every indication that Senor Palma's forces have scored a sweeping victory, which will secure for him the rights he over, seem to be taking philosophically.

Leaders are marshalling their forces in the hope of being able to turn the tide before December's final elections.

Should trouble in the immediate future be doubtful, but if dynamite is laid for the primaries, there is reason to fear the result of December's final elections.

Many Shots Fired.

(By Associated Press.)
HAVANA, September 23.—The presidential election in Havana passed off quietly, but from the fact that the city was without no disorders, except at Pinar, in the Province of Santa Clara, where many shots were fired, but no one was killed.

The Liberals admit the complete victory in Havana of the Moderates, the party of President Palma. They claim that they did not vote, because Moderate policemen stationed at the polls prevented them from doing so.

Was No Restraint.

A representative of the Associated Press visited a majority of the polls here, but at none of them noted any indication of restraint upon voters. Good order is being maintained throughout the city, and with the exception of a man being shot and probably fatally injured in a row to-night, and another being seriously hurt on the head by a rock, there was no trouble.

Crowds which gathered in the Liberal club rooms were dismissed by orators, who informed them that the Moderates were victorious and required the Liberals to retire to their homes.

The Liberals' Club was closed and barred, and the Moderates' Club was open. This was done because they had received word that the government intended to search the place for arms.

The latest telegrams received here indicate that the presidential elections have resulted in a complete government victory throughout the entire island.

Intervention Not Likely.

(By Associated Press.)
WASHINGTON, September 23.—Acting Secretary Adee to-day received a cablegram from Jacob Sleeper, the American charge at Havana in Minister Squier's absence, relative to the riot at Cienfuegos yesterday. Mr. Sleeper said a member of Congress had been shot and killed, but gave no details. It is stated at the State Department that nothing has yet developed, warranting any thought of intervention by this government in Cuban affairs.

Whether or not the Platt amendment has been violated in its provision requiring the maintenance of law and order in the island is a question of fact that would be rather difficult to determine, but nothing has yet occurred requiring a decision on the part of the United States government.

MANHOLE EXPLOSION
HURTS MANY; STOPS PARADE

(By Associated Press.)
NEW YORK, September 23.—The Coney Island Mardi Gras parade was broken up to-night by an explosion in two man-holes of the electric subway, resulting in the injury of about a dozen persons, five of whom were so seriously hurt as to necessitate their removal to the hospital. The explosions occurred where the crowd was dense, hurling columns of flame thirty feet into the air. Horses in the parade took fright and ran through the crowds, creating a general panic.

Guarantee Demanded.

The bankers demanded a reasonable guarantee of repayment of principal as well as interest before they would consent to loan a large loan. The talk was plain and the meaning of the bankers unequivocal. This is what the bankers said, practically.

"We are near the limit of our willingness to advance you money. If you insist on carrying on this war you will find difficulty in making future loans, and the issues of your bonds already floated will certainly depreciate in value. Consequently, the credit of Japan is threatened."

Baron Komura and Minister Tanaka understood. The government was for war; the money lenders were for peace. And there was peace.

Children Are Forced.

Critics of the school systems assert that children are forced too much; that they are over-stimulated, and are given tasks which are impossible for accomplishment for those slightly below the standard of capacity, and that punishment, the fear of reproaches and injury to self-pride push them toward suicide, to which he often hears his elders refer as a refuge.

An instance is given of a twelve-year-old boy, who had failed to do a Latin exercise properly, and was sent home to his father. The boy, the moment he entered his father's room, shot himself. In identical circumstances another boy threw himself out of a window.

The total number of children suicides in Germany during eighteen years was 777, just under 42 annually.

Foursome Tournament.

(By Associated Press.)
BROOKLINE, MASS., September 23.—Following the open golf championship at Myopia yesterday, an interesting foursome tournament for both amateurs and professionals was held to-day and Davenport, Eminent of the Garden City Club, playing with Stuart Gardner, the professional, of the same club, won with a net score of 154 for 36 holes.

A TYPICAL STREET IN CIENFUEGOS, CUBA.

A WARM CONTEST
BEGINS IN OHIO

Democrats Denounce the Boss
Rule and Graft Which Have
Prevailed.

BATTLE FOR CLEAN POLITICS

Fairbanks Says a Republican Con-
gress Will Readjust the Tariff
Schedules.

NEWARK, OHIO, September 23.—The Democratic State campaign was opened in this city to-day and far exceeded the expectations of the most sanguine. Two meetings were held in the open air, and in number and enthusiasm they out-ranked any demonstration of whatever character ever held here.

The speakers were Mayor Tom L. Johnson, of Cleveland; John M. Pattison, candidate for Governor, and Hon. James A. Ripe, candidate for Attorney-General.

Major Johnson spoke at great length and was enthusiastically cheered throughout. He spoke of boss rule in Ohio, and predicted the election of the Democratic State ticket.

Mr. Pattison said the campaign was "a battle for clean politics, honest and efficient administration of public affairs, and against bossism and graft." He attributed graft to the "baleful reign of bossism all over the country."

He described municipal ownership, and said that if people in cities cannot have their rights under the present system, all will "vote to try the experiment of ownership by the cities themselves even of street railroads, rather than continue to be robbed by corporations and corrupt officials."

Republicans Open.

(By Associated Press.)
BELLE FONTAINE, OHIO, Sept. 23.—Beautiful weather and immense crowds were the features of the opening of the Republican State campaign to-day.

Judge Dow, who while a member of the Legislature, introduced the bill which afterwards became known as the Dow law, one of the more important temperance laws of the State reviewed temperance legislation maintaining that the Republican party had been the author of every temperance measure ever put on the Ohio statute books.

Vice-President Fairbanks discussed national issues, saying: "A Republican Congress will readjust tariff schedules whenever such readjustment is essential to preserve the integrity of the system and to maintain the law in wholesome operations. Change will not be made for the mere sake of change or to promote free trade, whose disastrous effects, we well understand. An adjustment of duties will be made responsive to a sound economic demand."

Mr. Herrick spoke at considerable length, dwelling chiefly on State issues, although calling attention to the interest Ohio people always take in national affairs.

Senator J. B. Foraker closed the speaking program of the afternoon with a discussion of national issues.

WHY JAPANESE
SIGNED TREATY

Wall Street Forced Abandonment
of Demand for In-
demnities.

WOULD MAKE NO MORE LOANS

Japan Had Reached the Limit of
Her Ability to Borrow
Money.

(From Our Regular Correspondent.)
WASHINGTON, D. C., Sept. 23.—The world has never known why Japan abandoned her demand for indemnity from Russia for the cost of the war. It was one of the mysteries of diplomacy which have not been explained, and to the outsider looked inexplicable.

From a very high authority it is learned that Wall Street was responsible for the abandonment of the demand, and, indirectly, for the establishment of peace.

Big Bankers There.

It will be recalled that a few days before the Portsmouth conference terminated a number of Wall Street bankers went to Portsmouth or sent representatives thither. These men went as the spokesmen for the greatest banking houses of the world. Indeed, it may be said they represented every money lender of importance on the face of the earth. They pointed out to the envoys of the Mikado that insistence upon Russia to pay the cost of the war would certainly result in continuance of hostilities, and that the expenses of Japan would surely foot up hundreds of millions more. They pointed out that Japan had reached her limit of ability to pay interest; that her bonds were selling in the markets of the world at a heavy discount.

Guarantee Demanded.

The bankers demanded a reasonable guarantee of repayment of principal as well as interest before they would consent to loan a large loan. The talk was plain and the meaning of the bankers unequivocal. This is what the bankers said, practically.

"We are near the limit of our willingness to advance you money. If you insist on carrying on this war you will find difficulty in making future loans, and the issues of your bonds already floated will certainly depreciate in value. Consequently, the credit of Japan is threatened."
